

B2B ASSOCIATES

— *Interior Design* —

Our joint work consists in the identification and execution of activities to conceive, organize and manage the whole construction process of a work of architecture or a civil work, through the logical and temporal succession relations, making sure the customer is assured about the overall quality of the work, in line with the estimated time and expediting the activities for optimized efficiency.

All efforts are made so that resources are used based on market forecast and in full compliance with the law.

INTERIOR DESIGN

Interior design is a clearly expressed system created to respond to multiple demands for identity, performance, emotional and physical comfort of individuals and groups.

Our projects are able to suggest concept design, space planning, interior layout and display.

Our experiences provide discerning insights into the language of materials, lighting, colour, furniture and the integration of technical components.

The relation with the building is deeply investigated. Our project offers an effective and personal method.
