

B2B ASSOCIATES

—— *Thermotechnics* ——

Our joint work consists in the identification and execution of activities to conceive, organize and manage the whole construction process of a work of architecture or a civil work, through the logical and temporal succession relations, making sure the customer is assured about the overall quality of the work, in line with the estimated time and expediting the activities for optimized efficiency.

All efforts are made so that resources are used based on market forecast and in full compliance with the law.

Thermotechnics

Each of our projects is developed by a team of professional technicians experts specializing in various energy sectors that ensure the full compliance with current regulations and using the latest technology and the most reliable software: the objective is to ensure an effective and efficient energy system for a best building that increases perceived living comfort, always aiming at reducing consumption and energy savings for end users.
